

S

STRENGTHS

Use friendly

More choices for the user

Still can unlock when one is not convenient

W

WEAKNESSES

The electricity consumption would become larger

Might be easily unlock even the user don't want to by accident

O

OPPORTUNITIES

Especially needed during some special infectious disease period

T

THREATS

Need a high level of technology

How to keep two things still in a small space

Higher requirement for designer to make them work together

Ziye Cao (Fiona)

Have Face ID & Touch ID together on phone
