

Home Page:

- emphasis on courses
- eliminate unnecessary/unpopular tools
- Add more color - vibrancy - more likely to attract users.
- Make the Blackboard logo a focus at the top.
- (For all pages) Include simple icons at the bottom of the page to toggle between each page.

↳ Options ≡ (all pages):

- My files.
- Show Grades.
- Archived Courses.
- Help.
- Settings
- Change user
- Log out.

Courses:

- Show courses only from current semester.
- Automatically archive old semester courses once a new one starts.
- Include course name, professor
- Not necessary to include semester/year in every course box - students know their courses - just label at the top.
- Color code based on course - not on assignment type.

Notifications:

- List from newer → older.
- Notifs show up as "assignment added"

To-Do Page:

- Organize FIRST based on type of assignments (i.e.: Requires Submission, Assignments, Overdue assignments, etc.)
- List out weekly: say "Due next week", then continue down.

Calendar:

- Allow students to add their own academic events for personal use to stay on track.
