

Week 2 Assignment: Color Theory Application

Maria Roig-Gironella

Make a grid of the colors you are wearing today.

Close your eyes. Picture a landscape that you would like to explore. Pick out the colors. Do a composition of simple shapes on a colored background that accurately renders the colors—not the specific imagery—of your "dreamscape."

Make a "personal color wheel" with a minimum of six divisions. Use only your favorite colors.

Make another color wheel
using only colors you
dislike.

Go to a room or a place in which you spend most of your time—or would like to spend more time. Do a color chart that accurately renders the range of colors and color relationships found in that place.

Refinement: render your color chart so that the relative proportion of various colors is accurately depicted.
