

PERSONA: Professor Alex.

USER STORY/SCENARIO:

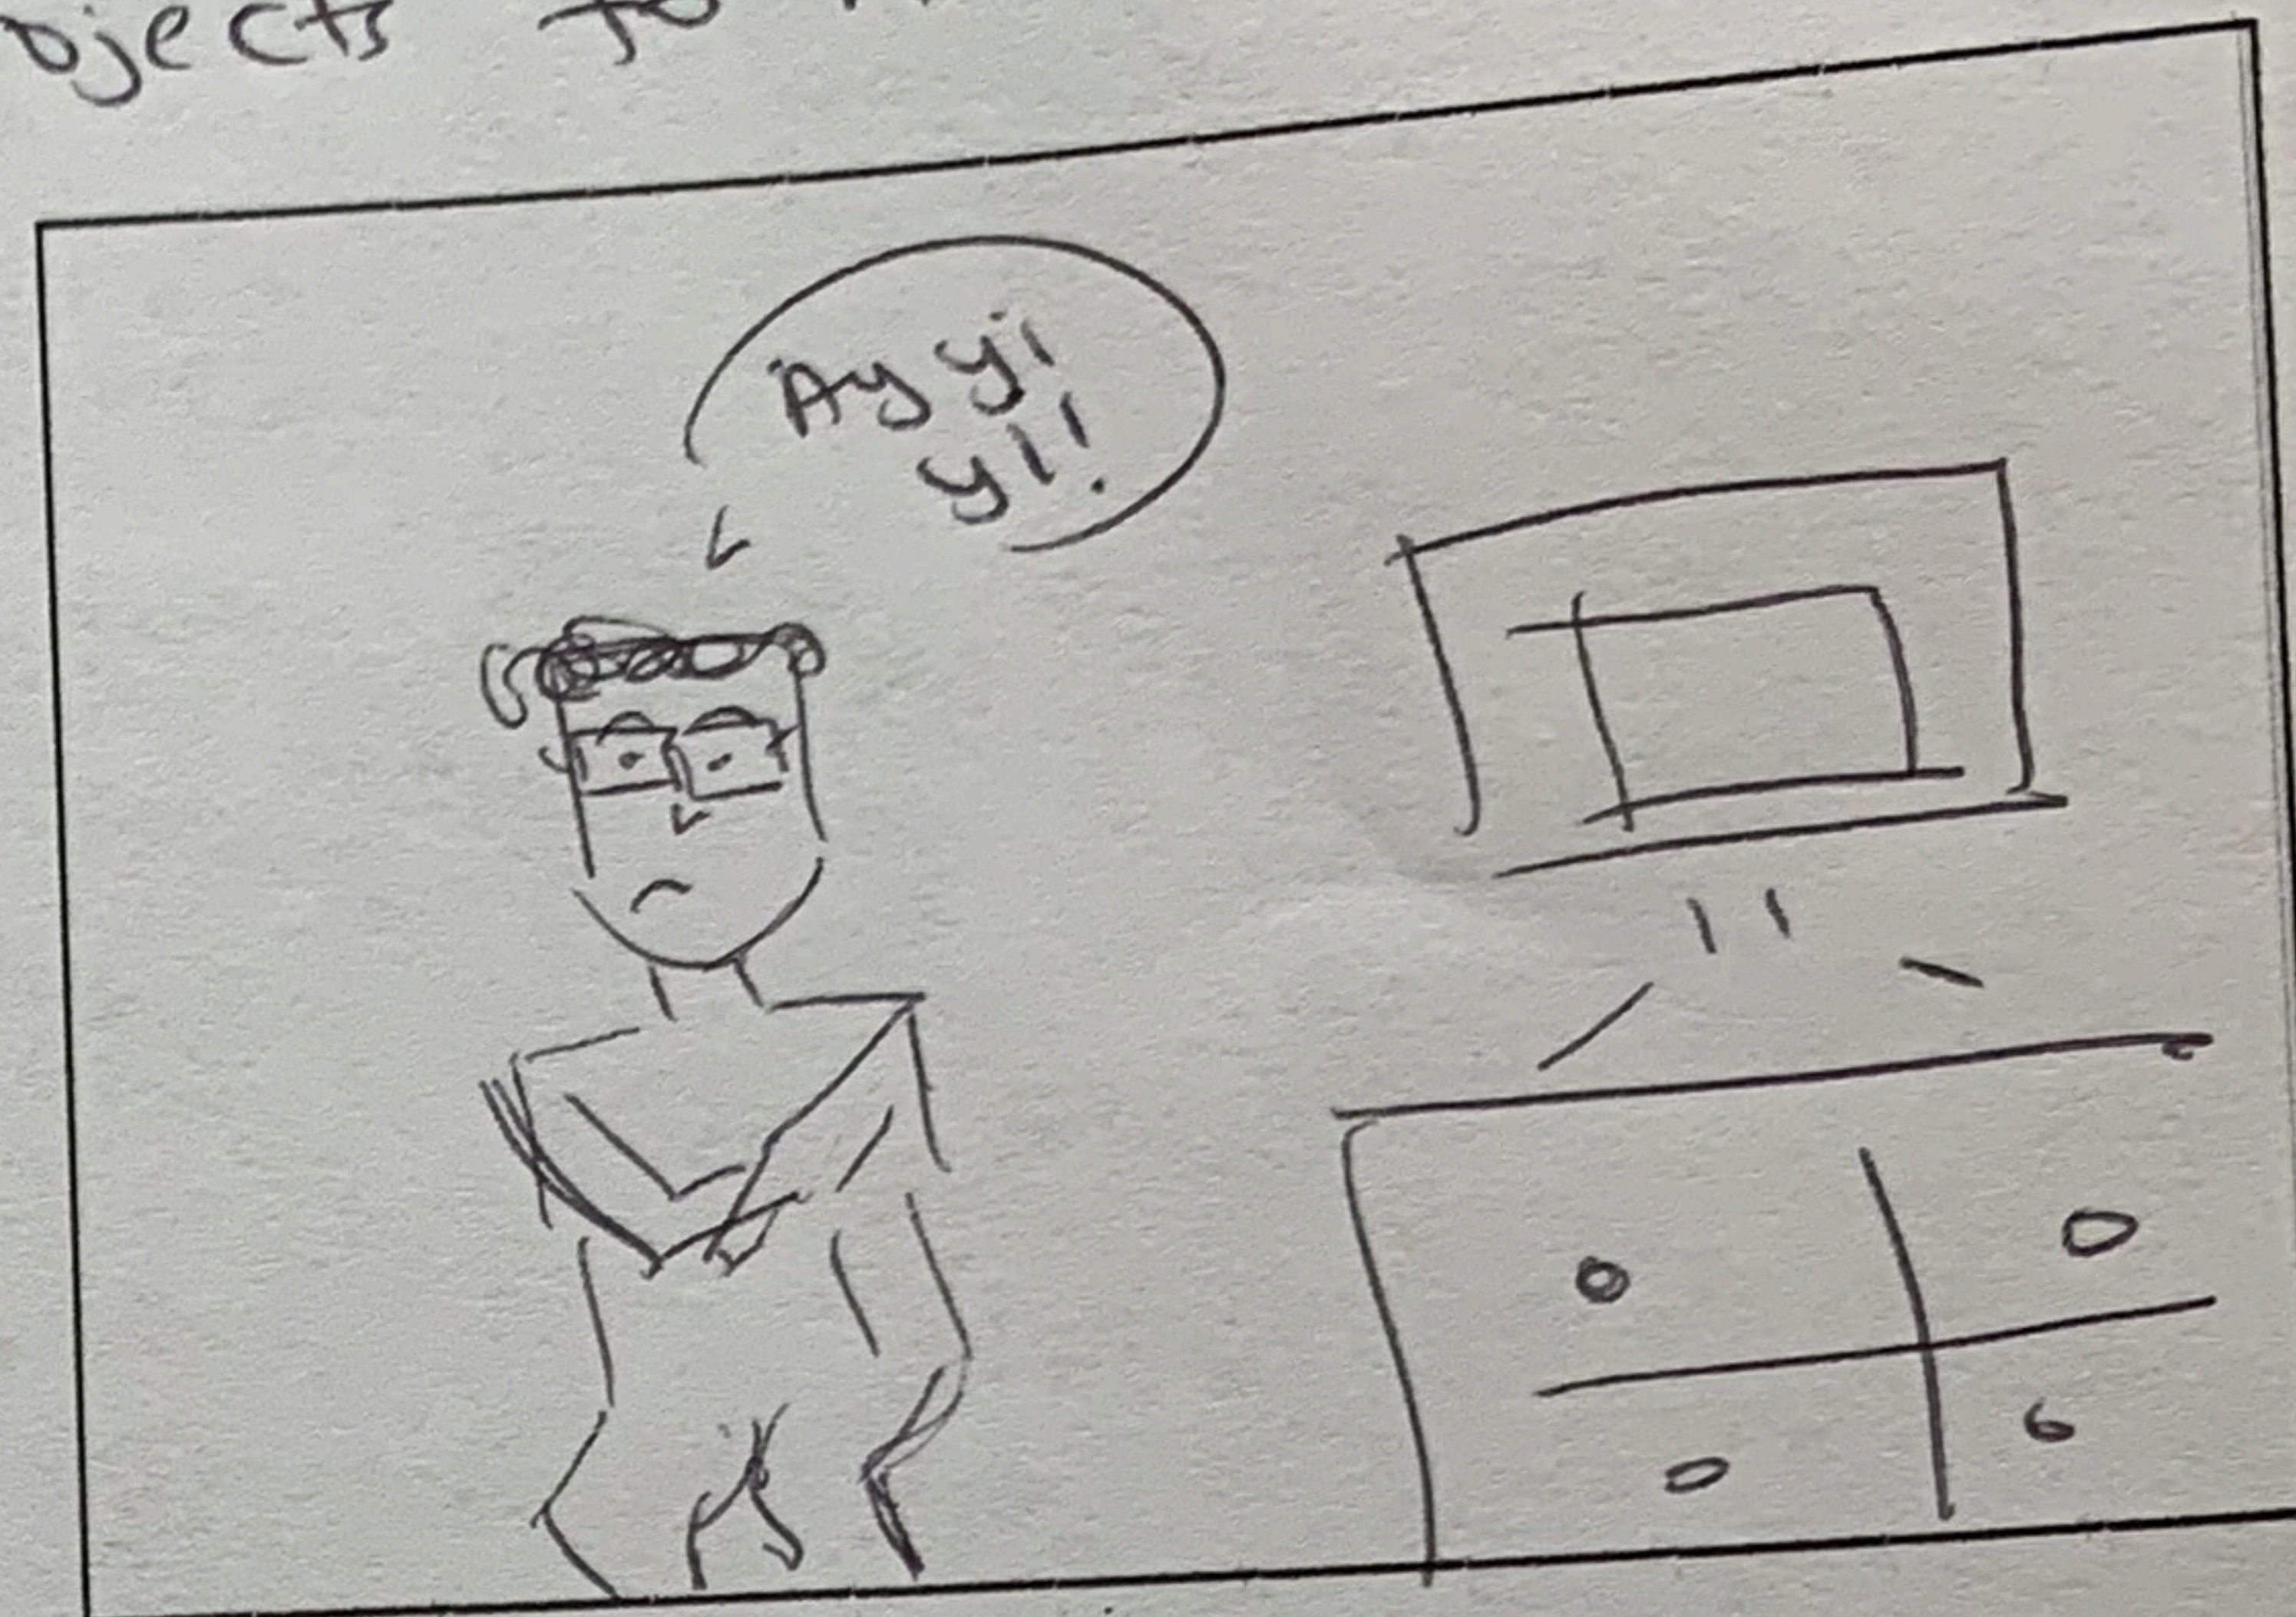

Alex is trying to assign projects to his students.

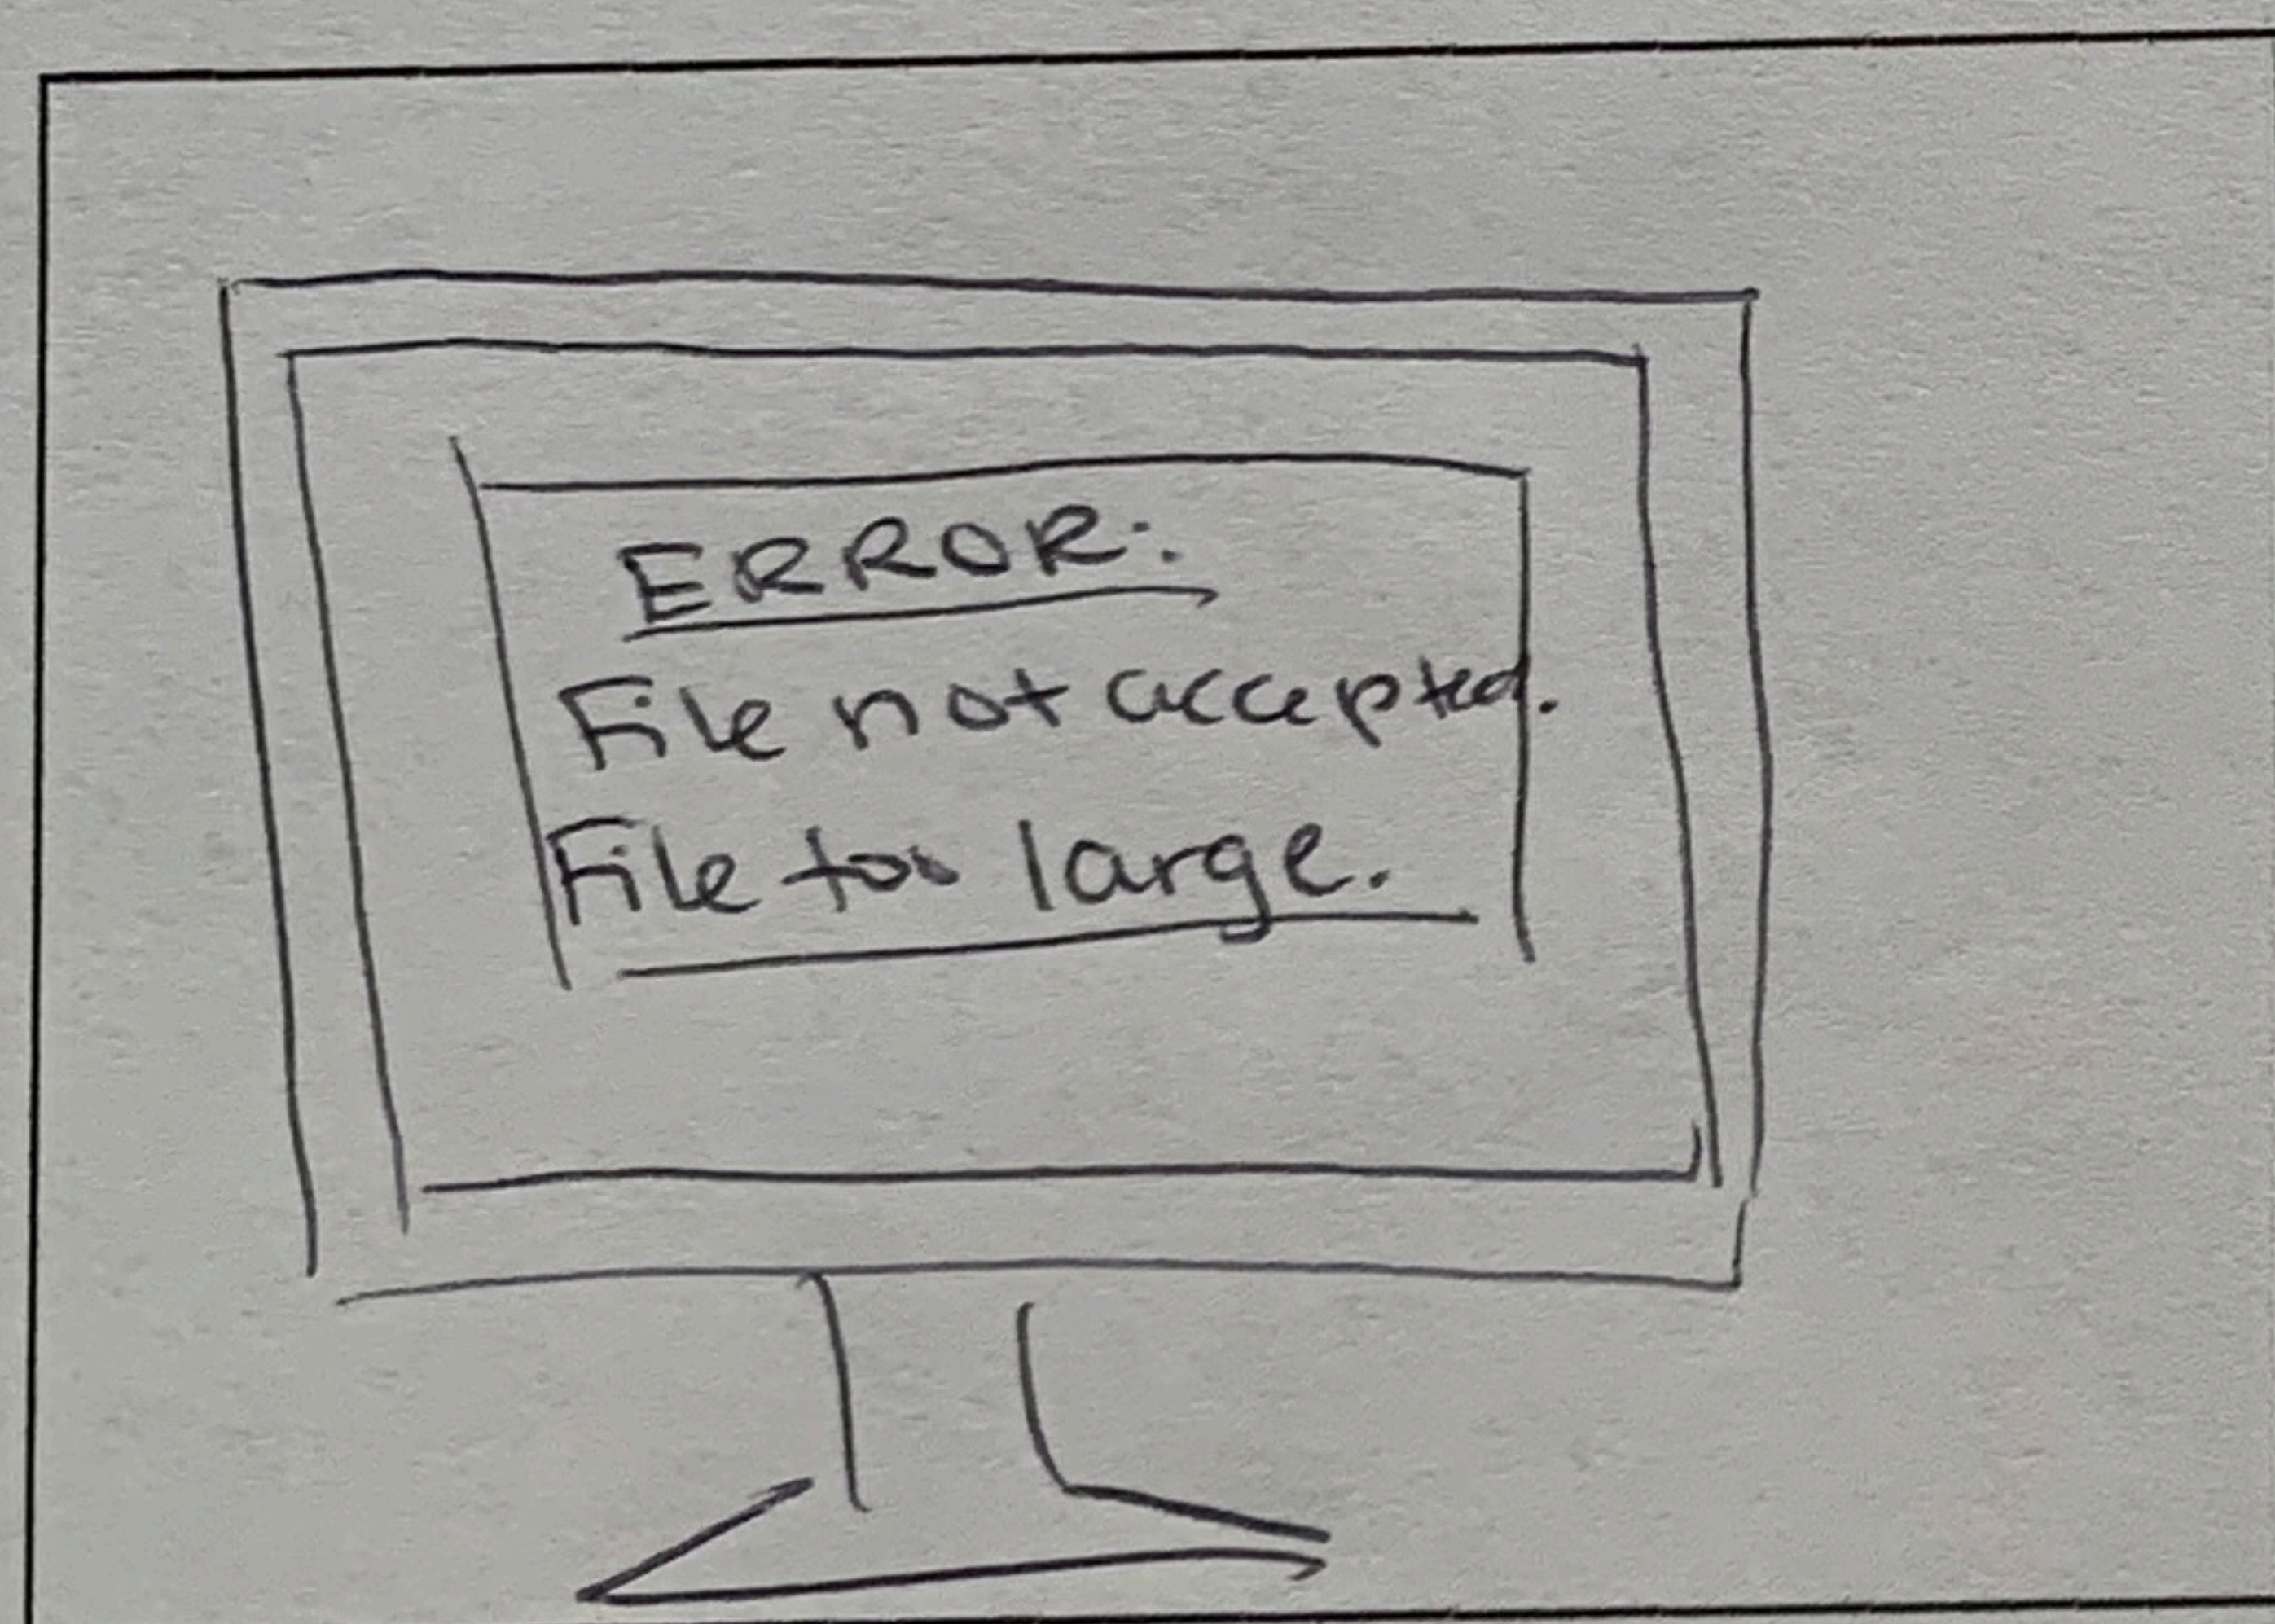

Professor Alex comes home and goes to his office to give some projects to students.

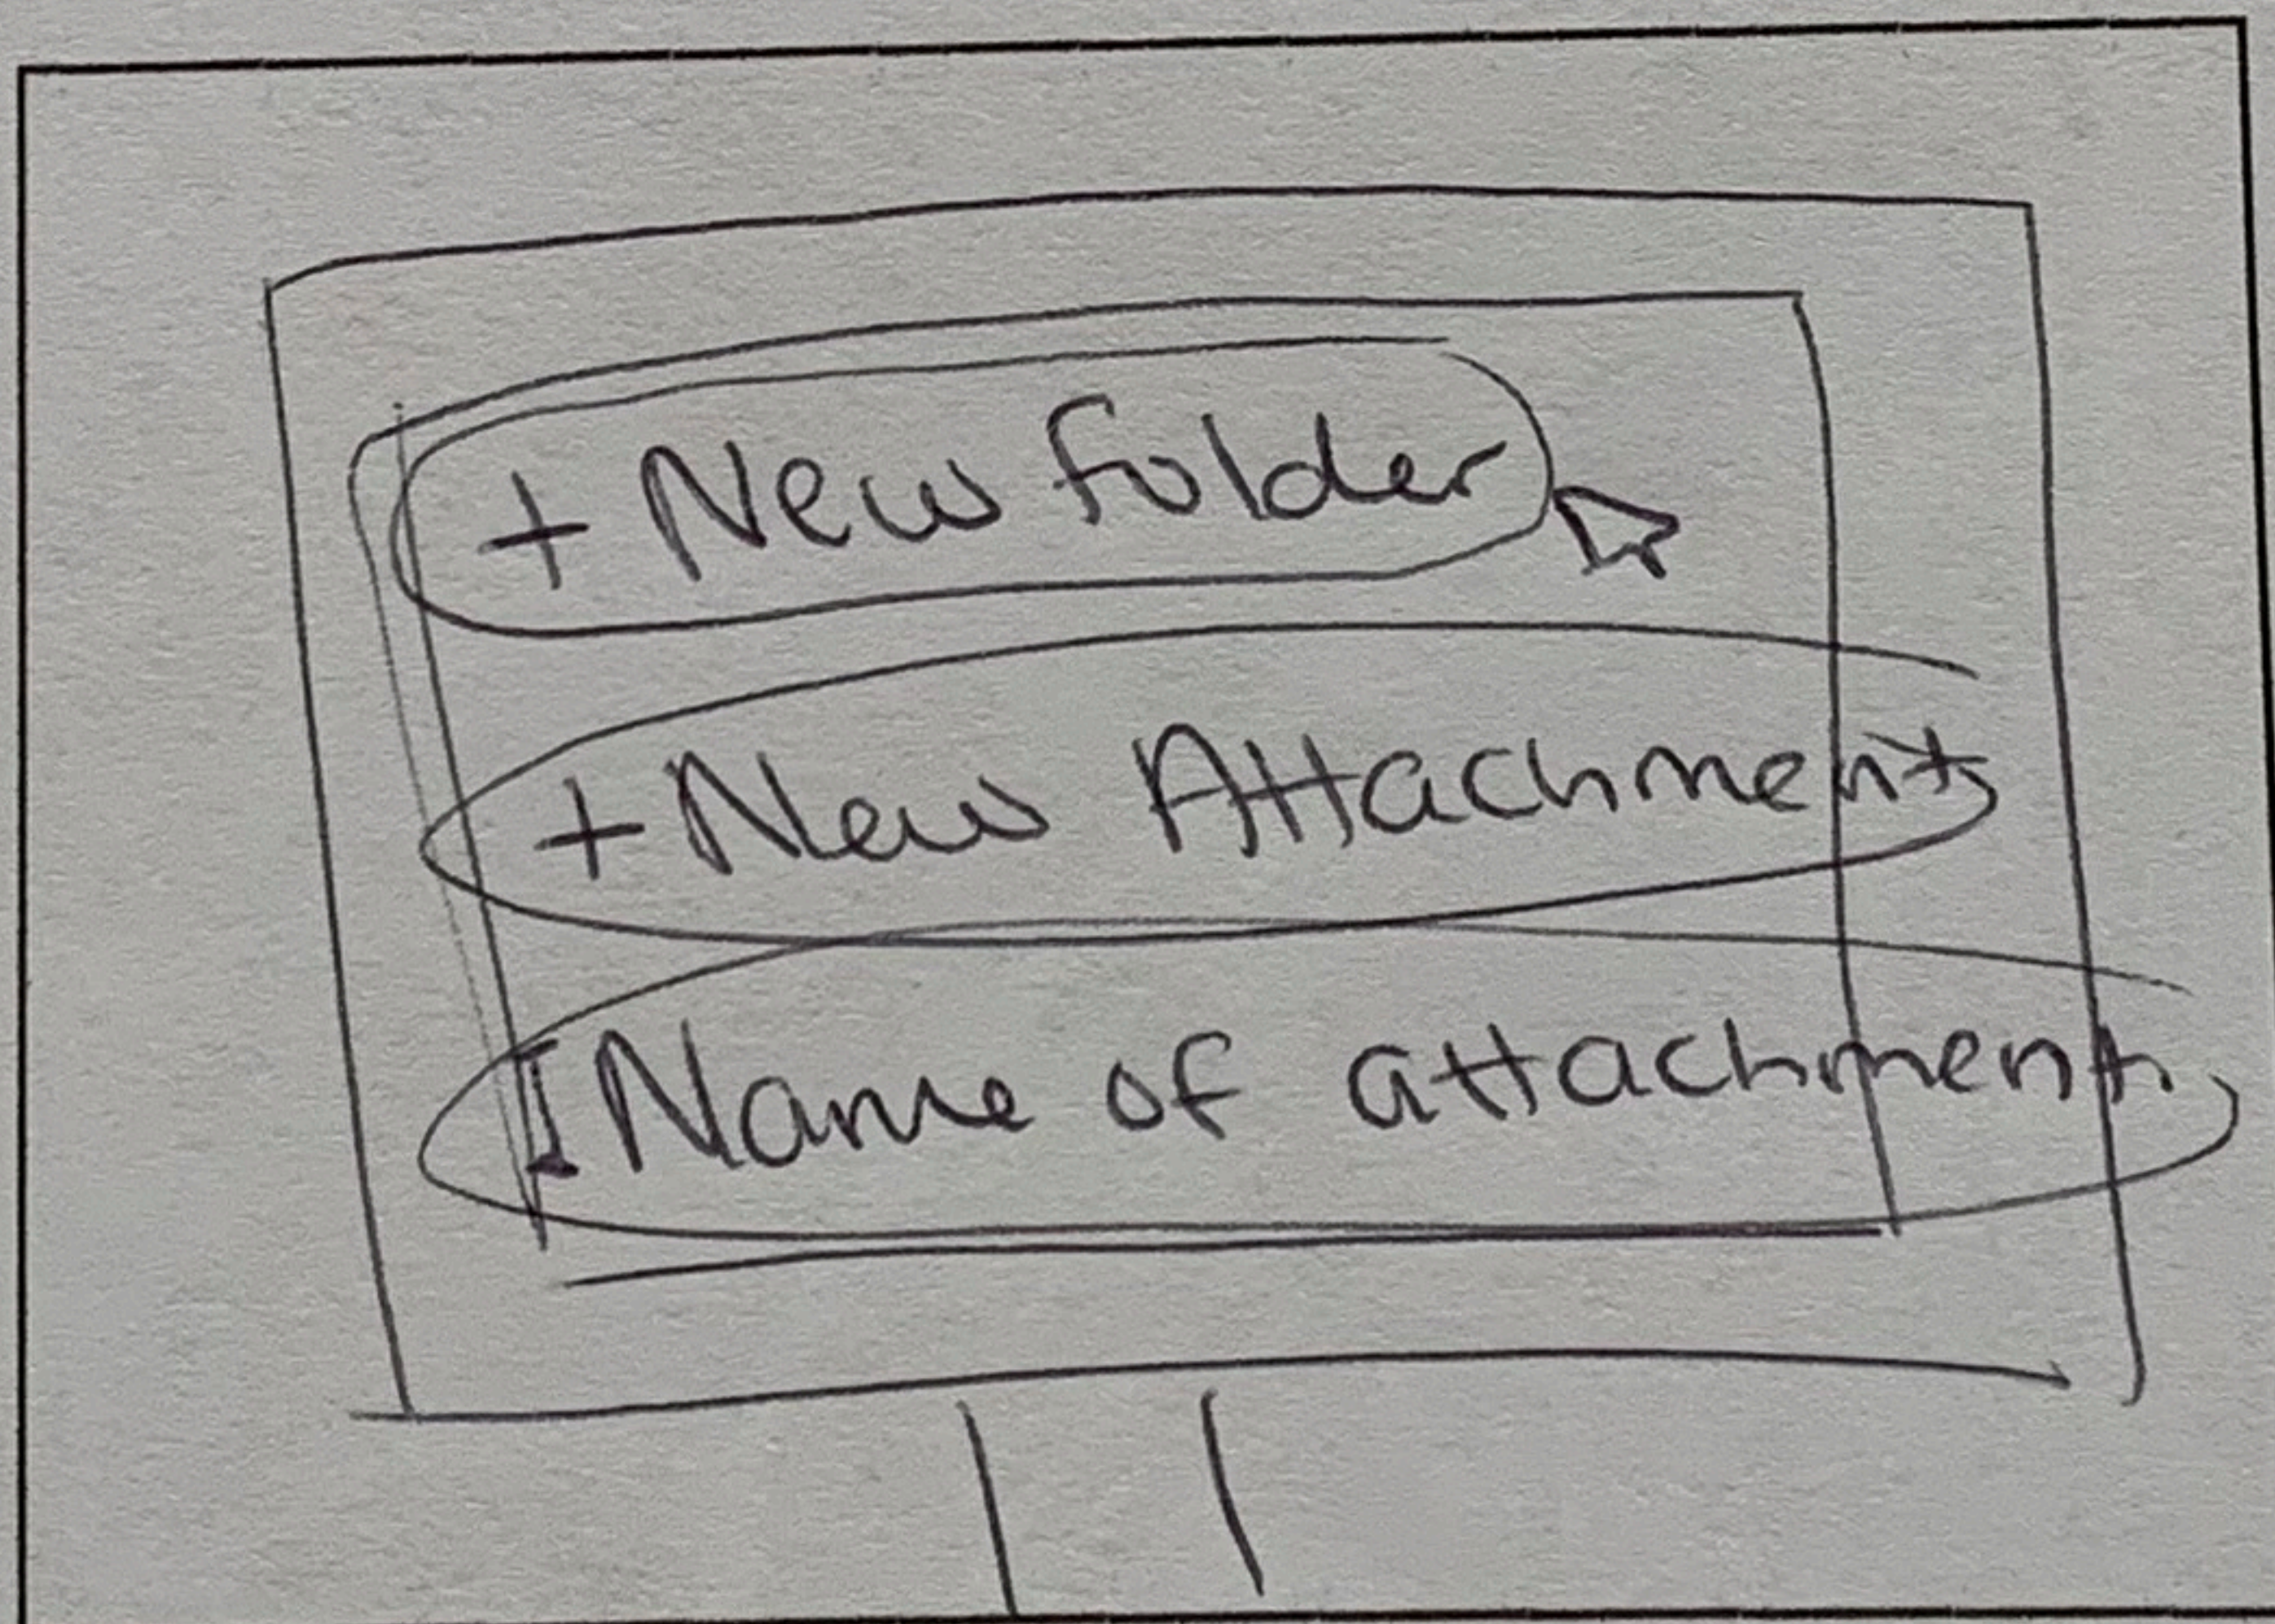

He finds a lot of emails from students who are experiencing issues.

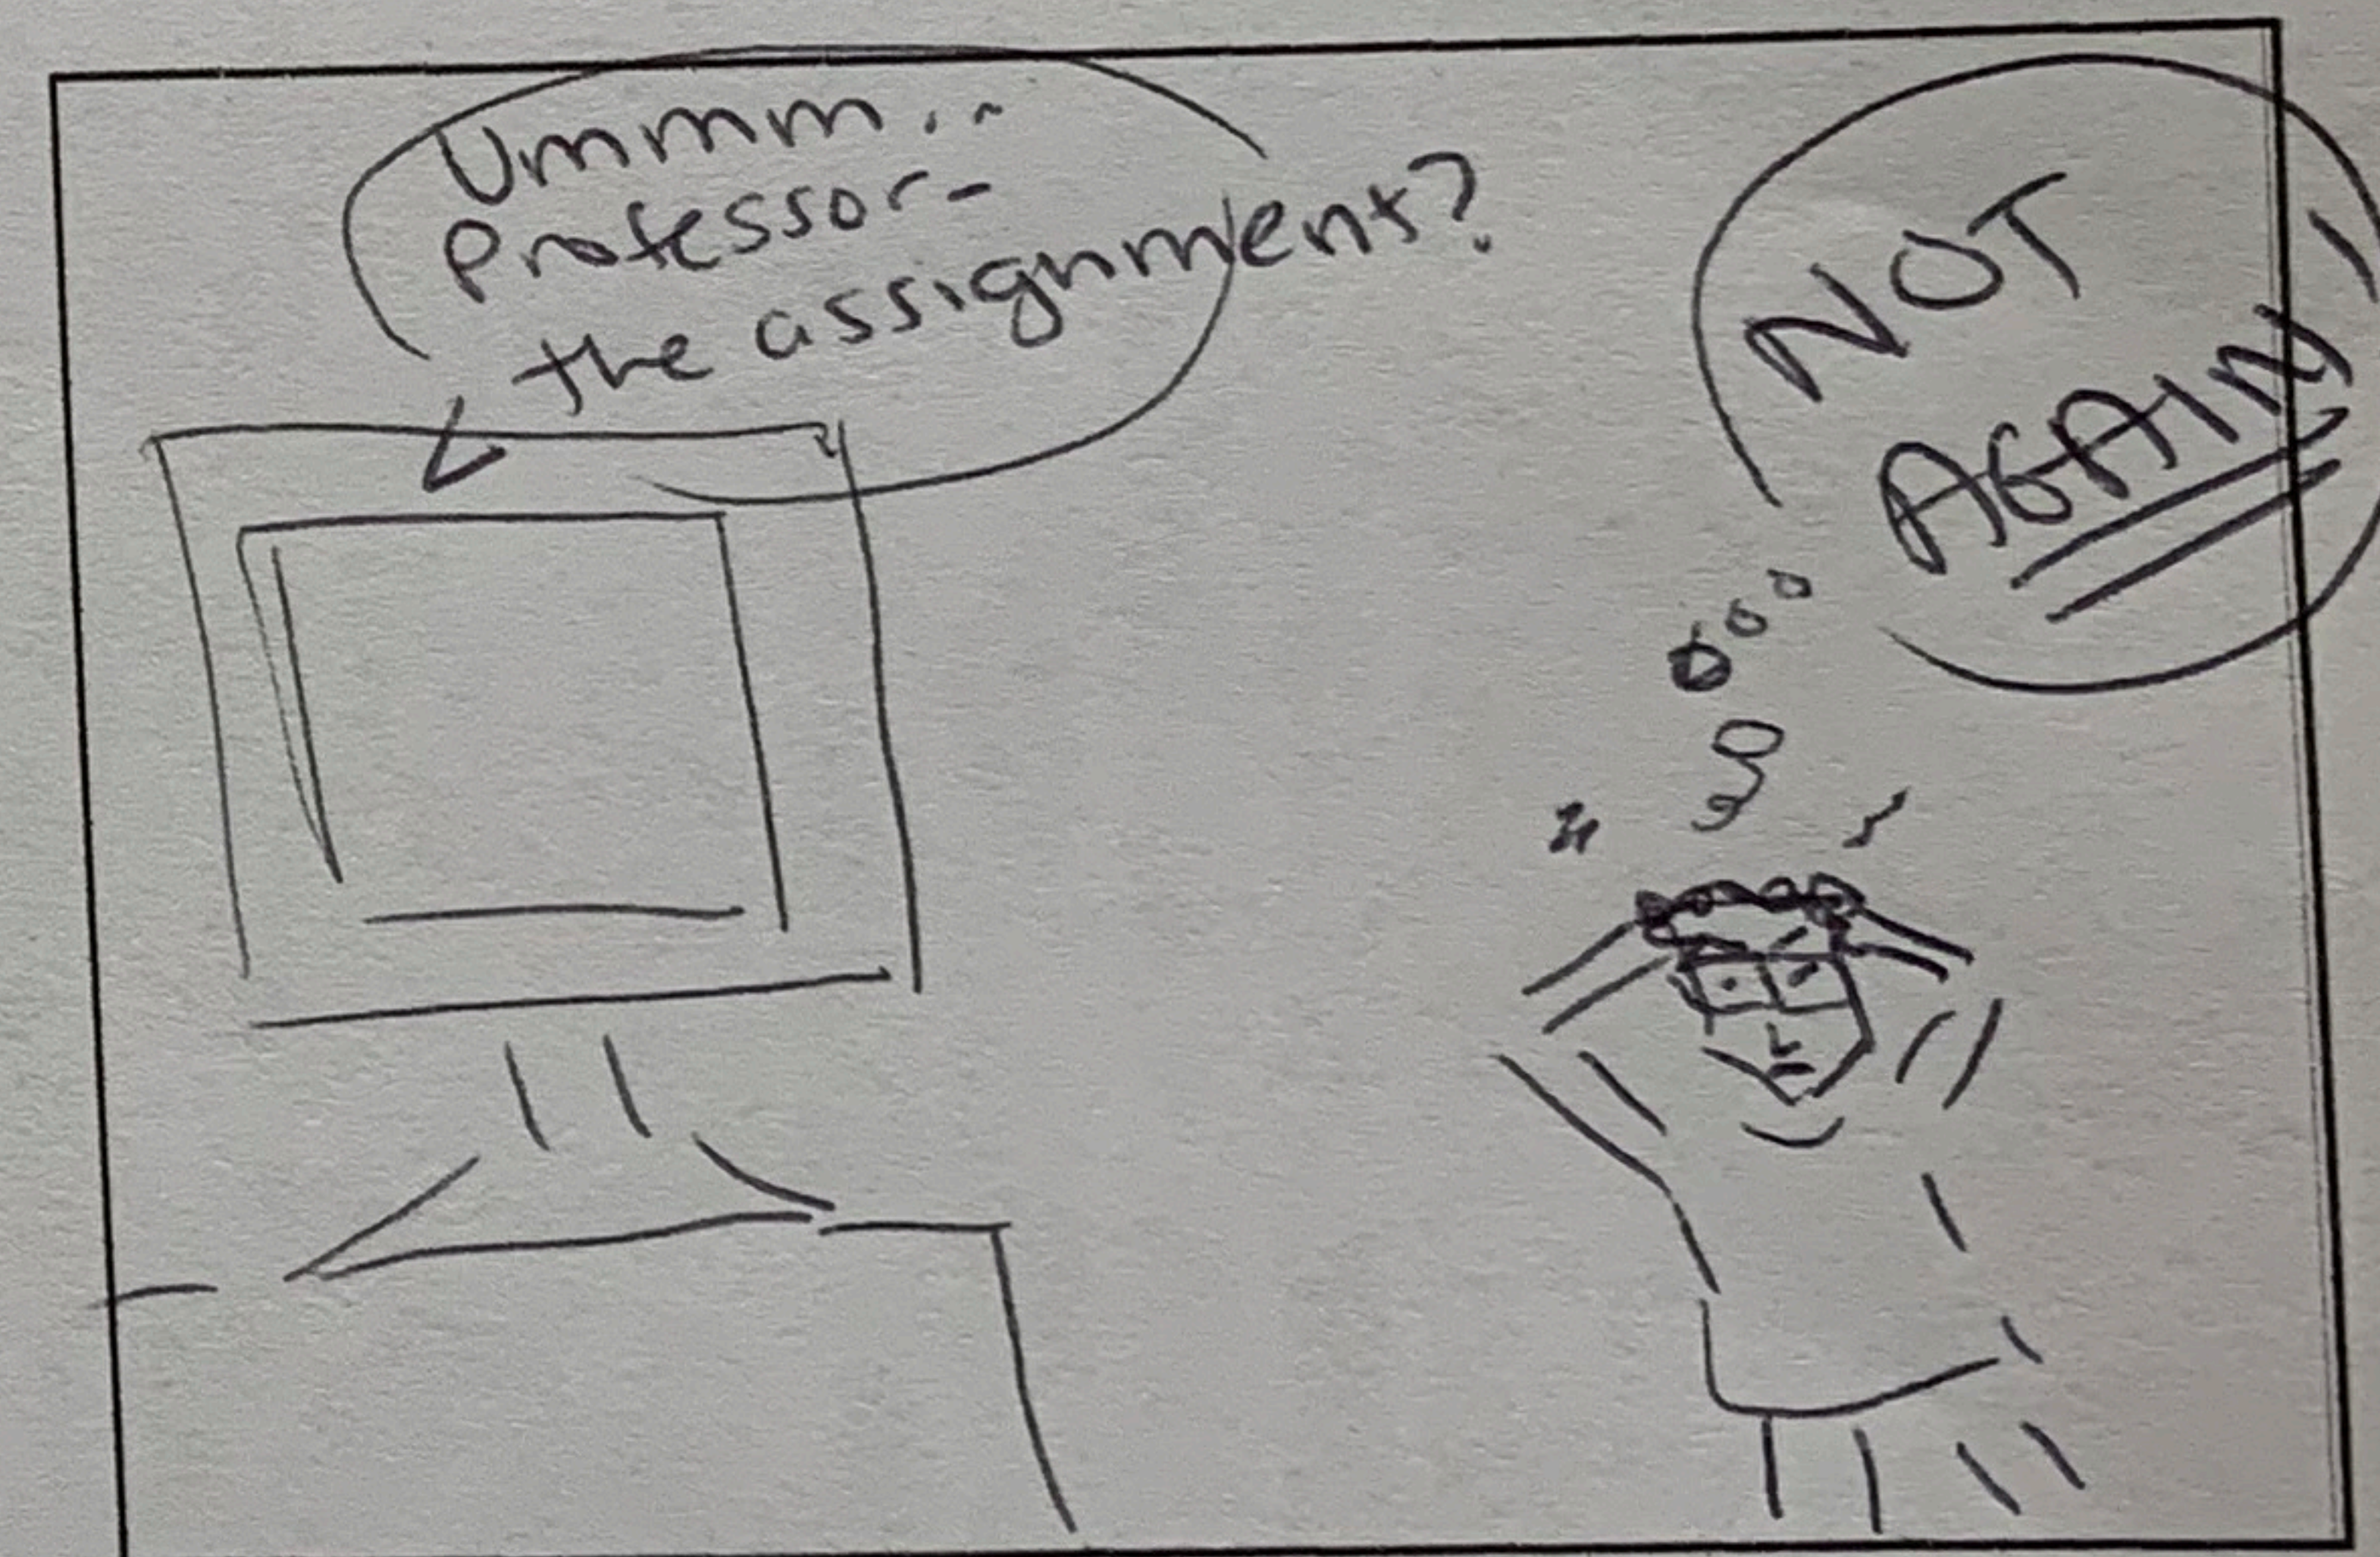

Alex has to respond to these emails and cannot move on to assign the next project.

Alex wants to provide attachments for this another project but only a certain file size is allowed.

Alex has to create a new folder for his course where he provides attachments.

Students are still constantly confused.
