

Wk 2 - Color Theory Application

Carolyn Thornton

3/16/19

I know the assignment says to choose one, so feel free to ignore one of these. I wanted to do the wheels so I would remember how to make charts in Illustrator and also because I was curious to see if I would be able to make one that I really didn't like. I did the grids as well because I've never made a color grid and I wanted to try it out with some of the colorful clothes I wore this week.

1) Color grids based on clothes I was wearing. I wanted to try out showing different proportions as described in Assignment 4 so I tried a second grid while I was wearing a very exciting plaid shirt.

3) A color wheel of some favorite colors and a color wheel of colors I don't like.
