CHUOLINE

WHO ARE WE?

We are dance choreographer, providing choreographies for Japanese advertisement industry and artists. When you wear our choreography, you can be ANYTHING.

OUR STORY

"Chuo" means "Center" in Japanese, so that "Chuo Line" means "Center Line".

When we create a dance choreography, the center line on the stage is very important to make a formation of the dancers. Also the name includes the meaning of that we want to be always at CENTER in the show-biz industry. The most interesting thing is that there is the train line called "Center Line" in the middle of Tokyo, and all of us founded the company lived around the station along the Center Line.

Dance choreographer is the job to create a lot of kind of performance, sometimes that is bright, dark, sometimes colorful.

You can be ANYTHING with our choreography.
