COLOR SWATCHES OF A TRANQUIL BEDROOM

The idea is to create a calm, harmonious, and soothing environment using very subtle wood tone with cool-tone color accents.

The wallpaper of the room is blue and white, as shown in the first image. The wood floor in the room has a slight hint of gray to create a cohesive look with the cooler tones of blue, dark green, purple, and light gray fabric colors. The bedside table will be painted a light cream color to add a little bit of warmth. The detail of the furniture will have silver-leaf accent, and the tabletop will be in white marble.
