Dr. Josef Mengele was a German SS physician (SS) officer and physician in a notorious concentration camp during World War II. He performed deadly human experiments on prisoners and was a member of the team of doctors who injected victims to die before the gas chambers. Victims that were judged not to work were placed into the camp, which those deemed unsuitable for labor were sent to the gas chambers to be killed. With Red Army troops sweeping through Berlin, Mengele was transferred 280 kilometers (170 mi) from Auschwitz to the Gross-Rosen concentration camp on 17 January 1945, just ten days before the arrival of the Soviet forces at Auschwitz. After the war, he used his own experiments to turn himself into "THE HUMAN BONG".
