

- Bright colors portay happiness, bright, vibrant
- Reminds me of summer or a vacation

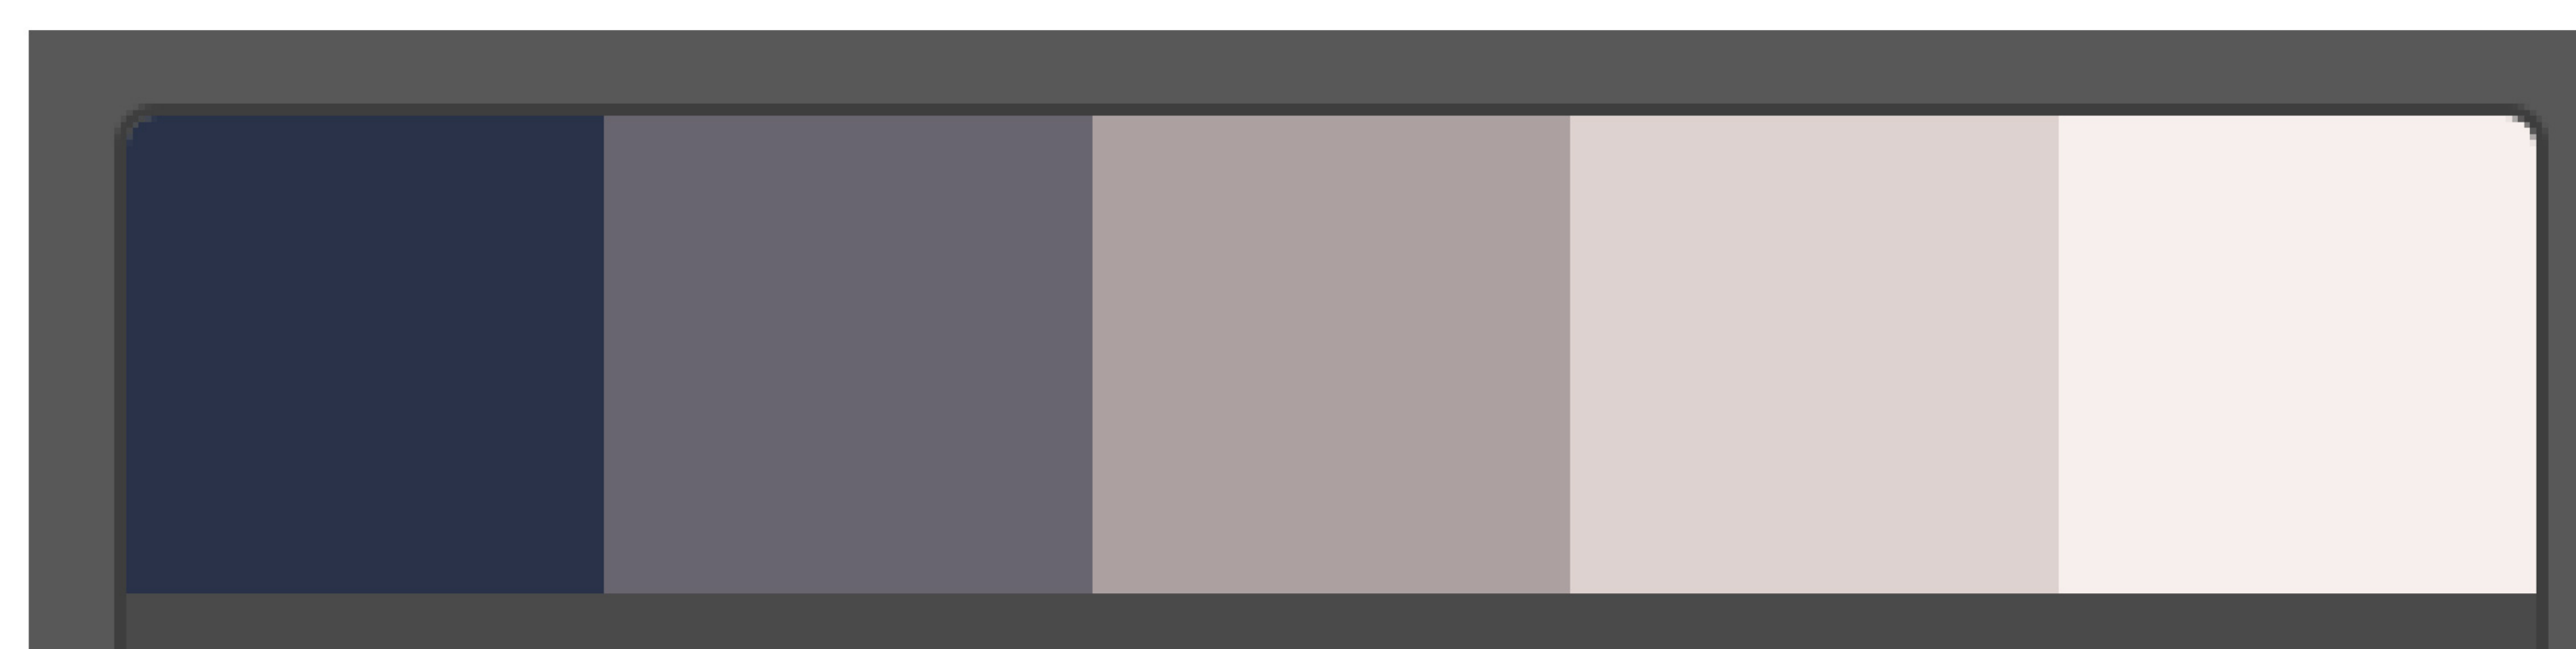

This color palette shows more of a gloomy feel

May depict sadness in ones eyes

Reminds me of a rainy day

I chose this color palette to represent the ocean and its depth

One might look at this and due to the dark blues also see sadness, however I personally associate blues with the ocean or sky

Lastly this color palette reminds of me of a tropical beach or mountain

The greens with the neutral tones give off a more earthy or natural vibe that would also be greatly represented in someones living room or bedroom
