## FLORAL

A LIFESTYLE OF FLOWERS

*Discover your lifestyle filled with flowers | Thank you for your love*

LANA BYANCA FLORAL goods are uniquely made according to the finest conditions, with a commitment to quality and attention to detail. Let us create an elegant floral experience to delight your lifestyle, satisfy your love of flowers, and for your important moments in life.

*Points to note: To care for and ensure the longevity of your flowers*

- | The silk flowers may be slightly out of shape due to delivery process. It's normal that a few petals may fall during delivery. Simply connect them back to the flower stem, and use your fingers to loosen the petals and leaves in their natural form.
- | Should the product get wet, gently dry it with natural-coloured cloth.
- | When not in use, store the product in its protective clear bag, and avoid weight pressure as this may damage its shape.
